# Transform 2-6 Week Projects into **Minutes**

Investor Presentation

## **Active trial at Google Cloud and other software companies**

- Founded by ex-Google AI lead
- Reduces prototype development from weeks to [minutes](#)
- Built using Google's best practices
- Trusted across enterprise teams for rapid prototyping needs
- Creating a new standard for enterprise application development

## Massive Market Opportunity

- Global Low-Code Development market: **\$36.4B in 2024**, projected to reach **\$187.0B by 2030** (Markets and Markets)
- AI in software development market: **\$13.9B in 2024**, growing at **45.2% CAGR** (Grand View Research)
- Only 34% of enterprise projects completed on time, with average overrun of **114%** (McKinsey, 2024)
- 78% of enterprise leaders prioritizing AI integration for app development (Gartner, 2024)
- Targeting \$200B+ enterprise software development market with expansion to full custom SaaS

## Proprietary Technology

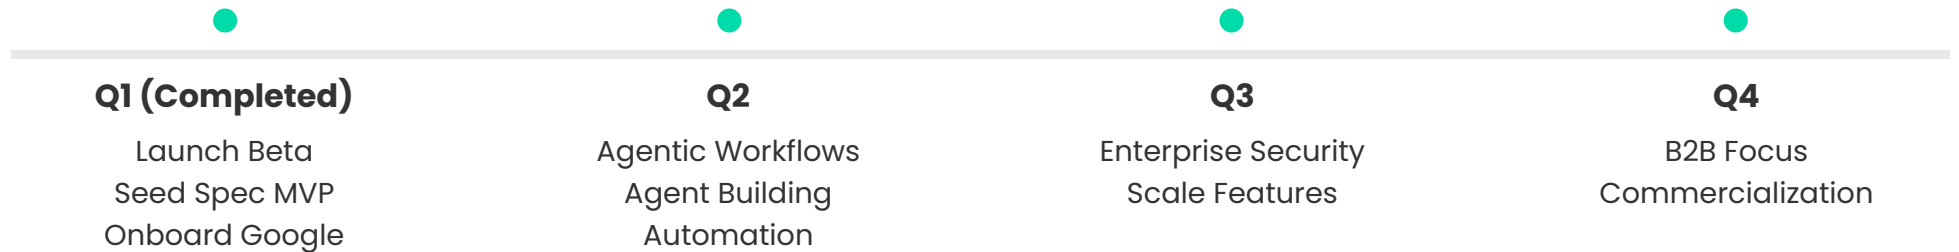

Noodle Seed is a low-code platform that enables users to build applications faster than direct code generation. It offers a range of design roles, including designers, developers, and testers, and supports various integrations and manual integration. It also includes a range of surprise features.
